The Story So Far:

After recognizing the excitement of overcoming a challenge, I made a career change from sales to software development in 2021

With a focus on front-end development utilizing React, my goal is to apply the knowledge cultivated from prior experience to further develop a growth mindset; leaning into unknown endeavors, and reshaping the world one line of code at a time.

Notable Projects:

➔ **Underground ROYALTY**
React e-Commerce web application built out to replicate fully fleshed out shopping experience. From user authentication, to completing the checkout process utilizing Stripe.

➔ **My Portfolio**
A React based application primarily utilizing JSX; this offers a look into my collection of web apps that i've created or collaborated on.

➔ **Youtube Project**
React front end application that utilizes an API call to render videos from the YouTube API.

Skills:

- Professional writing publications
- Strong problem-solving abilities
- Communication/Collaboration
- Knowing when to ask questions

Experience:

Deltek

Sales Development Representative (2019-2021)

Professional role with daily KPI's -- Achieved monthly quota(10) and maintained pipeline growth across a cross-sectional team.

VALIDATE

Software Developer Internship (2021)

Front End web application: refactored from Alpha stage into Beta version.

Technologies: React, GraphQL, AWS, Git, material-UI, Versioning Control

- Code-reviewed implementations

Opine

React Web Developer (2022-Ongoing)

Anonymous quizlet for Washington School District

Technologies: React, Firebase, Formik, Yupp, Stripe, localForage, UUID

- STRIPE API implementation, integration & deployment of Node server
- CSV converter for data conversion from rival competitors
- Creation and configuration of Firebase security rules

Education

BA of Science (GSS w/ focus in Bus & Econ.)
University of Oregon, Eugene, OR
3.05 GPA, 2019

September 2021 - Epicodus (C# & React Track)

FT: 27 week bootcamp w/ experience in:

- Test Driven Development (Red Green Refactor)
- Languages: Javascript, C#, React, CSS, HTML,
- Pair Programming (Daily)
- VALIDATE, LLC Internship (React)

Certificates:

- Responsive Web Design Fundamentals (Udacity-'23)
